

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at <http://books.google.com/>

R. I. Factory Inspector - 7-8-16 g

LETTER OF TRANSMITTAL.

OFFICE OF FACTORY INSPECTORS.

PROVIDENCE, R. I., January, 1916.

To the Honorable General Assembly of the State of Rhode Island:

In accordance with the provisions of Chapter 78 of the General Laws, I have the honor to submit to you this, the twenty-second annual report of the Factory Inspectors of this State, covering the inspection of factories, work-shops, mercantile establishments, bake-shops, ice cream and confectionery manufactories, etc., during the year ending December 31, 1915.

Respectfully submitted,

J. ELLERY HUDSON,

Chief Factory Inspector.

REPORT

The Chief Factory Inspector respectfully presents the following as the twenty-second annual report of the department:

There have been seven thousand and forty-five (7,045) places inspected during the past year, divided as follows:

Bake-shops, stores, etc., employing less than five persons.	4,365
Establishments employing five or more persons.....	2,680

Total number establishments inspected.....	7,045
--	-------

This is an increase of two hundred and sixty-two (262) in the number of places employing less than five persons, and a decrease of ninety-two (92) in the number of places employing more than five persons.

The number of employees in the various establishments was divided as follows:

Males of sixteen years and over.....	109,298
Females of sixteen years and over.....	48,732

Total adults.....	158,030
-------------------	---------

Males under sixteen years of age.....	2,452
Females under sixteen years of age.....	2,712

Total number of children.....	5,164
-------------------------------	-------

Whole number employed.....	163,194
----------------------------	---------

The foregoing figures compared with those given in our last report show an increase of five thousand two hundred and fifty-three (5,253) in the number of adults employed; a decrease of two hundred and eighty-six (286) in the number of children employed; a net increase of four thousand nine hundred and sixty-seven (4,967) in the whole number employed. The percentage of child labor is 3.16. For the year 1914 it was 3.4.

That this increase of nearly five thousand in the total number employed is not due to a general increase throughout the State is shown by the fact that ten establishments show a combined increase of six thousand two hundred and sixty (6,260) in the number employed, which is one thousand two hundred and ninety-three (1,293) greater than the increase for the entire State.

The number of employees in the jewelry and silverware manufactories was divided as follows:

Males of sixteen years and over	8,200
Females of sixteen years and over	2,808
Total adults	11,008
Males under sixteen years of age	199
Females under sixteen years of age	162
Total children	361
Whole number of employees	11,369

The number of employees in bake-shops, ice cream and confectionery manufactories, stores, etc., employing less than five persons was divided as follows:

Males of sixteen years and over	5,719
Females of sixteen years and over	2,562
Total adults	8,281

Males under sixteen years of age	55
Females under sixteen years of age	7
Total children	62
Total employed	8,343

The number of employees in the textile industries was divided as follows:

Males of sixteen years and over	37,561
Females of sixteen years and over	27,454
Total adults	65,015
Males under sixteen years of age	1,624
Females under sixteen years of age	2,194
Total children	3,818
Whole number employed in textile industries	68,833

Compared with the figures given in last year's report the foregoing show an increase of nine hundred and thirty-eight (938) in the number of adults employed; a decrease of two hundred and fifteen (215) in the number of children employed; a net increase of 723 in the whole number employed in the textile industries. The percentage of child labor in these industries is 5.6. In 1914 it was 5.9.

The following table shows the number of men, women, boys and girls employed in the State, and also the percentage of child labor by counties, cities and towns:

THE STATE, COUNTIES, CITIES AND TOWNS.	ADULTS.			CHILDREN.			Total em- ployed.	Percentage of children.
	Men.	Women.	Total.	Boys.	Girls.	Total.		
THE STATE.....	109,298	48,732	158,030	2,452	2,712	5,164	163,194	3.16

The following table gives a summary of the statistics of the reports of this department for the years that the factory inspection law has been in force:

YEAR.	Number of places visited.	Number of adults employed	Number of children employed.	Total number employed.	Percentage of children.
1894.....	294	55,109	5,217	60,326	8.5
1895.....	293	53,523	4,473	57,996	7.7
1896.....	379	50,068	4,065	54,133	7.5
1897.....	355	56,072	4,786	60,858	7.9
1898.....	433	63,259	4,539	67,798	6.5
1899.....	549	72,296	4,666	76,962	6.0
1900.....	595	76,552	5,253	81,805	6.4
1901.....	617	81,496	5,068	86,564	5.8
1902.....	628	86,043	5,477	91,520	6.0
1903.....	644	90,165	6,451	96,616	6.7
1904.....	653	88,545	5,895	94,444	6.2
1905.....	1,508	112,377	6,917	119,249	5.8
1906.....	1,742	123,112	6,932	130,044	5.3
1907.....	1,899	131,059	6,150	137,209	4.5
1908.....	1,913	122,060	4,924	126,984	3.9
1909.....	1,973	135,947	5,531	141,478	3.9
1910.....	6,225	151,199	5,699	156,898	3.6
1911.....	6,430	156,808	5,699	162,507	3.5
1912.....	6,520	161,585	5,761	167,346	3.4
1913.....	6,689	164,005	6,026	170,031	3.5
1914.....	6,875	152,777	5,450	158,227	3.4
1915.....	7,028	158,030	5,164	163,194	3.16

BAKE-SHOPS, ICE CREAM AND CONFECTIONERY MANUFACTORIES.

There are in force at the present time three hundred and nineteen bake-shop certificates, an increase of eight over the number in force last year. There are also in force one hundred and seventy-one (171) certificates for ice cream manufactories, a decrease of four, and eighty-two for confectionery manufactories, a decrease of one, making the combined number of certificates in force five hundred

and seventy-two (572), an increase of three. Two bakers have been forced to move into more sanitary quarters without recourse to law, and one basement bakery has been closed.

RECOMMENDATION.

I again, and for the fifth time, call your attention to the necessity of providing adequate means of egress from factories and work-shops in case of fire. The duty of the State is very plain. The army of wage-earners should have every protection that engineering skill can provide. The very least that can be done is to require that all buildings hereafter erected for use as factories and work-shops be equipped with tower fire escapes so arranged as to afford an easy and safe means of egress from the building in case of fire. This can be accomplished without any appreciable addition to the cost of building. I earnestly urge you to give the matter your careful consideration.

PROSECUTIONS.

Two cases have been brought before the Sixth District Court during the year. One for violation of the fifty-four hour law and one for employing a child under sixteen years of age after 8 o'clock P. M. Both were sustained.

ACCIDENTS.

Thirteen hundred and two accidents were reported during the year, eleven of them resulting in death. Three hundred and ninety-nine of these accidents, including four of the deaths were caused by machinery. Of the accidents by machinery, three hundred and twenty-four were cuts and bruises of the fingers and hands and were not serious. The more serious accidents included 1, loss of arm; 1, loss of scalp; 8, fractured arm; 2, fractured hand; 31, loss of finger. There were also a number of bruises and sprains which were not of a serious nature.

Respectfully submitted,

J. ELLERY HUDSON,

Chief Factory Inspector.
